The New Standard

Software Driven Video (SDV) – Leveraging the power of 21st century computers, VidTac delivers mobile “app” like flexibility, feature richness, and ease of use.

Traditional Systems
Require expensive hardware

SDV
Uses software

Unleashing the Power of Software

Officer Dashboard

Metadata completely removed from the evidence window.

Drop down menu controls.

Date and time stamp silhouette.

Multifunction playback controls.

System status displayed discreetly.

Retractable multi-camera display.

Map of officer location.

Keep weeks of video history for after-the-fact recording.

Digital Multi-Media Evidence Dashboard

Easy to use storage retrieval and export.

- Export to the Court Dashboard for simple playback
- Export raw files for editing and playback in your preferred program
- Robust search by multiple metadata parameters
- Map view of event location

Court Dashboard

Simple evidence file selection and playback.

- Secure import
- Intuitive search among evidence files
- Metadata display
- Multi-camera viewing
- Still photo view
- Map view of event location

Car to Court complete!
