

# AN/PVS-7

## Generation III

- Mil. Spec Housing
- Light Weight
- Submersible

The AN/PVS-7 is the night vision device used most extensively by the U.S. military and its allies. This high performance night vision goggle is the state-of-the-art in single tube Night Vision technology. With the use of a single Generation 3 (64lp) image tube and a dual eye configuration, the PVS-7 provides outstanding night vision performance. It features simple user controls and fully automated image tube protection. It can be hand held or head strap mounted allowing the user to have complete freedom of movement while maintaining equilibrium and balance in a hands free application. The PVS-7 also incorporates an infrared illuminator with a momentary and continuous on switching function. Infrared operation and low battery indicators are displayed within the user's field of view.

The PVS-7 comes complete with a lightweight, fully adjustable military head strap that allows for comfortable long-term use. A wide range of optional accessories include high magnification lenses, compass, infrared spot/flood lens and helmet mounting bracket. Ships with: Head-mount, Military Soft case, batteries, extra brow pads, lens tissue, and a manual.

## Key Features
